# How to connect to SUHSD_STAFF Wi-Fi in any android phone

1.- From the home screen, navigate to "Apps" > "Settings" > "Connections"

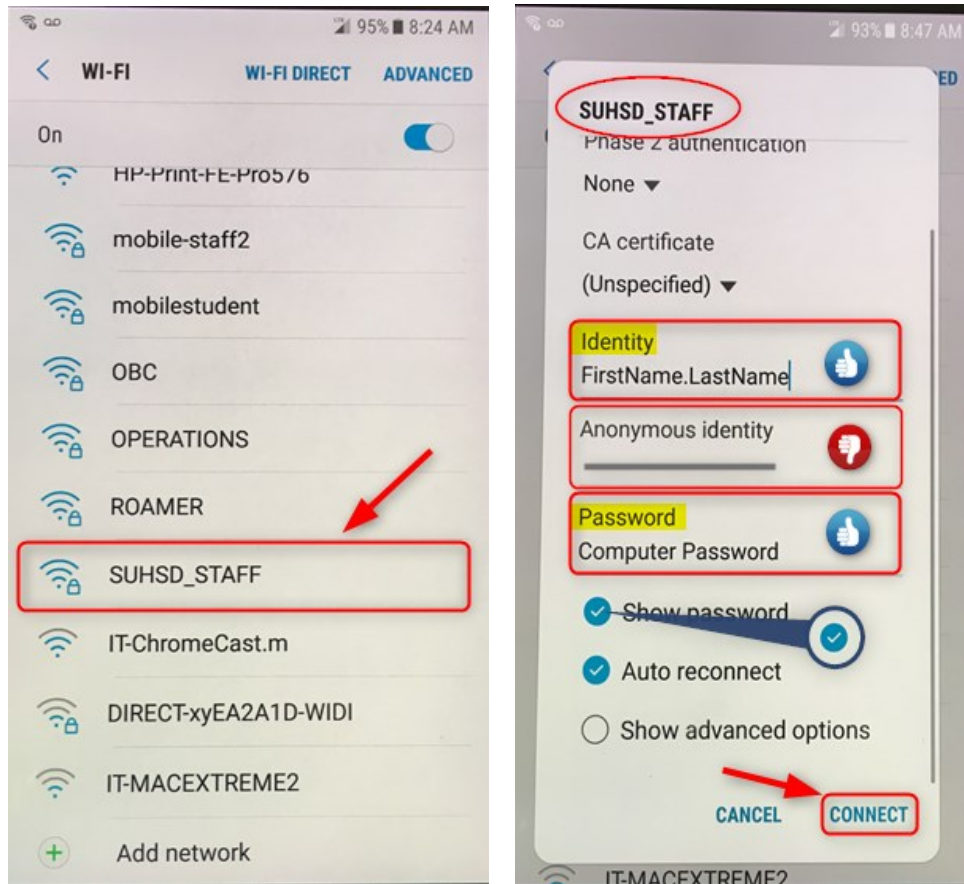

2.- Tap the "ON" feature and choose "Add network" type **SUHSD_STAFF** & tap connect.

3.- Tap the **SUHSD_STAFF** profile.

- In the next windows under Identity, type your domain user ID. **Example: Joe.Smith**
- Under password, type your domain computer password.

4.- You should see the icon bars at the top of your screen.
